**Getting Started**

**Getting Started**

**Getting Started**

**1 Charge the LDX10 for 6 hours**

Use the USB cable and the optional adapter to charge from a 110VAC wall outlet.

**2 Starting up the LDX10**  
*Power and Reboot Procedures*

**Power Button**

- Pressing the power button while the LDX10 is OFF powers up and re-boots the unit.
- While charging, the LDX10 display will go dark after a time set in the 'Display Properties' settings in Windows® Control Panel. Touching the screen or any key will awaken it from this idle state.
- If left idle for 30 minutes, the LDX10 will automatically power down.
- Pressing the power button briefly, while the unit is on, will either put the LDX10 into suspend mode, or wake it up depending on its current state.
- Pressing and holding the power button for more than 3 seconds causes the LDX10 to power off.

**3 Download DC Console**  
Download the DC Console utility at  
[www.barcodepower.com](http://www.barcodepower.com)

Utilize **DC Console** to quickly modify existing applications or create new ones and transfer files from your LDX10 to your PC.

**▲ IMPORTANT!**

Users must install either Microsoft® ActiveSync® or Windows® Mobile Device Center® before installing AML **DC Console**.

*Note:* Microsoft ActiveSync works only with Windows® XP or earlier.

*Note:* The Windows Mobile Device Center is only supported on Windows Vista™ or later.

The LDX10 comes with a suite of pre-installed applications as a part of our **DC Suite**. These applications were developed for common data collection tasks and are ready to go right out of the box.

As future applications are developed, they will be made available on the web at [barcodepower.com](http://barcodepower.com).

**Dashboard**  
All applications are launched from here.

Simple one-field scanning.

Scan the Item Number and key in the Quantity.

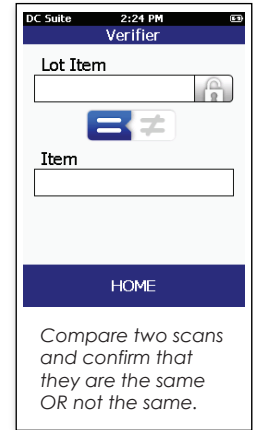

Scan in Item Number and the unique Serial Number.

Scan the Item Number and then collect Lot Number and Quantity information.

Asset Tracking application.

Compare two scans and confirm that they are the same OR not the same.

Check-In/Out application for tool or part rooms.
